

LIBRARY & INFORMATION SCIENCE

Master of Arts in Library & Information Science

Transform your future in library and information science.

Offered on campus and online, the top-ranked University of Arizona Master of Arts in Library and Information Science (MLIS)—Arizona's only American Library Association-accredited master's program—has been preparing students for exceptional careers in libraries, museums and archives, as well as government and business, for more than 50 years.

WHAT YOU'LL LEARN

- Creation, organization, management, access and use of knowledge and information
- Research methods in library and information science
- Provision and management of resources and interdisciplinary services in libraries and other information environments
- Application of organization and knowledge principles in library and information collections and services
- Administration of community collaboration and alliances in provision of library and information services
- Information issue analysis from diverse perspectives
- Recognition, analysis and appropriate responses to ethical issues and dilemmas in library and information settings
- How diversity contributes to the library and information professions

CAREER POSSIBILITIES

MLIS graduates are ready to excel in a wide variety of rewarding positions, including:

- Public, school, academic, health science or legal librarian
- Library manager
- Health information specialist
- Media specialist
- Research analyst
- Researcher
- Data or metadata analyst
- Archivist
- Copyright specialist
- Curatorial specialist
- Digital curator or repository specialist
- Digital services manager
- Geospatial specialist
