

# DON'T MISS THE BOAT!

# CONTAINER CAMP

**BASICS JULY 26-28, 2021**    **ADVANCED AUGUST 2-4, 2021**

REGISTER FOR VIRTUAL WORKSHOPS: [WWW.CYVERSE.ORG/CC](http://WWW.CYVERSE.ORG/CC)

## Take Reproducible Science to the Next Level

CyVerse's 3-day workshops on container technologies are a game-changer, enabling you to easily share, scale, and reuse tools and workflows for all types of computational analyses. Learn to use and build customized containers to make your workflows more reproducible, collaborative, and streamlined.

## CONTAINER BASICS

**July 26-28, 2021**

Come with basic command line skills and leave with a running container.

## ADVANCED CONTAINERS

**August 2-4, 2021**

Learn to build customized containers to make your workflows more collaborative and streamlined and join the fleet that's sailing towards the vast horizon of reproducible science.

## BYOD/BYOA

Bring your own data and analyses! Course participants for either Basic or Advanced camps are encouraged to bring their own data and analytical workflows for containerization.

## ENROLL NOW

**Registration** is open for both Basic and Advanced workshops. All of our workshops are virtual.
