Social Networking  
Robotics and Information Processing  
Data Science  
Rapid Prototyping  
Digital Curation and Preservation  
Data Mining  
Libraries and Librarianship  
History and Philosophy of Information  
and much more!

What is an iSchool?

iSchools, is a global consortium of Information Schools dedicated to advancing the information field. The information field is widely recognized for creating innovative systems and designing information solutions that benefit individuals, organizations, and society. While each individual iSchool has its own strengths and specializations, together they share a fundamental interest in the relationships between information, people, and technology.
